

TESTIMONIAL

I would like to thank Andy and Crackers for their excellent presentation on tackling and other contact skills made to coaches from the Central Murray area.

Coaches in attendance varied from Under 11 to senior level however the way that the material was presented meant that this was not an issue and the relevance was never lost regardless of the coaching level.

The beauty of these presenters is that they related beautifully at grass roots level to our coaches whilst still possessing the necessary credibility with their work at the elite level. Attendees never lost their enthusiasm due to the friendly and personable presentation style that these guys exhibited.

The feedback received from the coaches that attended the seminar suggests that the simple, practical yet effective techniques that were demonstrated will be implemented immediately back at their home clubs.

I have no hesitation in recommending the Plan-to-Win team for any coaching Professional Development that you may be seeking.
