

TESTIMONIAL

July, 2013

Crackers,

I am writing to express my appreciation for coming along to observe my coaching and provide some feedback.

As far as I was concerned, I had the basics. I just seemed to always be rushed and my pre-game was wasted as it had minimal structure. I also spent time focused on praise and ignored the required improvement areas.

Our club gave me the opportunity to have Craig Winter from 'The Modern Game' come along and watch me coach on game day.

WOW, my head was in the clouds and I was missing so many basic things. The Coach Observations/feedback Crackers provided was detailed, structured, constructive but in no way critical and gave me an entire list of improvements and tools that I could make to my role.

Thanks to 'The Modern Game' (Crackers) I feel organised, confident, refreshed and I look forward to my continued involvement as an Aussie Rules football coach.

For any coach (regardless of the age group you coach), I would highly recommend the Coach Observations that 'The Modern Game' offer.

Thanks heaps mate. The time we spent together really helped me out and has had a huge impact on my approach to coaching.

Best regards,

Shaun Halit
